

# INSIGHTS

Vol 1, Issue 20 - February Edition 2026  
Affiliated to CBSE

## FROM THE PRINCIPAL'S DESK

Dear Parents, Students and Esteem Staff Members,

February has been a month of vibrant inquiry and purposeful learning from PP to Grade VIII. The campus thrived with discovery during the National Science Day Academic Exhibition, and the enriching Science Gallery visit, while the fire drill reinforced preparedness and responsibility. Celebrations like Black & White Day and the engaging puppet show blended joy with values, reminding us that learning touches both the mind and the heart.

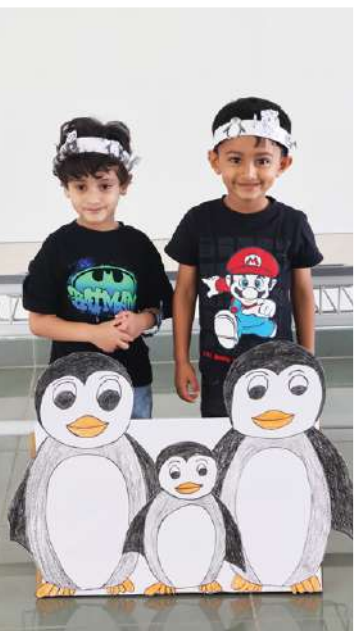

Across Grades I to VIII, curiosity came alive through soil conservation explorations, renewable energy experiments, AI design projects, and STEM projects. Mathematical thinking took shape through 3D models and playful challenges, while sustainability shone through waste segregation and reuse initiatives. Life skills, moral values, creative arts and hands-on design thinking continued to shape confident and conscious learners.

As we reflect on the month, I feel immense pride in the enthusiasm and responsibility our students display each day. Together, we are nurturing thoughtful global citizens ready to shape the future with knowledge and integrity.

With Warm Regards,

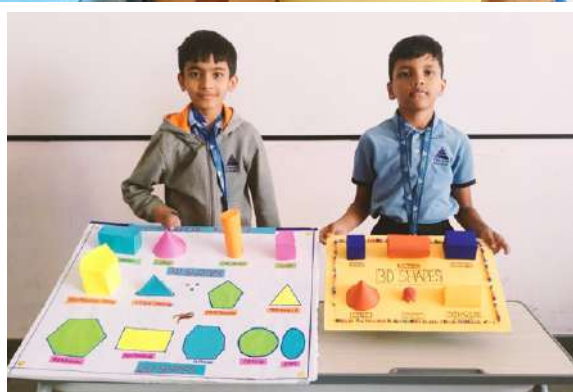

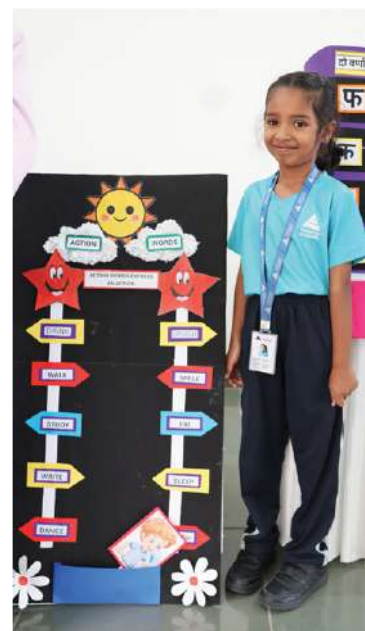

Rajeshwari B C  
Principal

## FEBRUARY 2026 HIGHLIGHTS

February buzzed with energy through the National Science Day Academic Exhibition, an enriching Science Gallery visit, a campus-wide fire drill, the joyful Black & White Day celebration and an engaging puppet show. From science and sustainability to safety and creativity, the month was a vibrant celebration of learning and inspiration.

# ACTIVITY OF THE MONTH

## NATIONAL SCIENCE DAY CELEBRATION

National Science Day was celebrated with great enthusiasm through a dynamic Academic Exhibition that brought together learners from PP to Grade VIII. The campus transformed into a vibrant showcase of models, charts, and hands-on displays, reflecting creativity, collaboration and a deep understanding of science in everyday life.

The event was further elevated by the inspiring presence of **Dr. H.G. Nagendra, recipient of the prestigious BOYSCAST Fellowship**, whose encouraging words ignited scientific curiosity among students. Adding to the spirit of responsibility, every exhibit was thoughtfully crafted using eco-friendly and recyclable materials, celebrating innovation with sustainability at its heart.

# OTHER ACTIVITIES OF THE MONTH

## FIRE DRILL

Preparedness took centre stage as students from PP to Grade VIII, along with staff, swiftly responded to the fire alarm and calmly evacuated to the assembly area. The session that followed offered hands-on insight into fire types and the correct use of extinguishers, with a few brave volunteers even trying it out!

Smooth, systematic, and empowering, the drill strengthened awareness and built confidence in handling emergencies responsibly.

📅 9<sup>th</sup> of February 2026

## BLACK AND WHITE DAY CELEBRATION – PP

PP little stars lit up the campus in elegant black and white as they celebrated a day full of colour recognition fun! From object-spotting tours around the school to creative art and playful games, every activity helped them confidently identify and differentiate the two shades.

The celebration was lively, interactive, and filled with smiles, boosting participation, confidence, and excitement in the most delightful way.

# OTHER ACTIVITIES OF THE MONTH

## SCIENCE GALLERY VISIT – “CALORIE” EXHIBITION

An exciting learning journey awaited Grades V to VIII at the Science Gallery exhibition themed “Calorie.” From understanding the soil-to-plate story and the impact of sugar to exploring silicone waste and future foods like edible insects, curiosity was sparked at every corner.

Designing their very own “Food Capsule for the Future” encouraged students to creatively apply their learning while envisioning innovative, sustainable food solutions for tomorrow.

📅 12<sup>th</sup> of February 2026

## PUPPET SHOW – “ELLE THE ELEPHANT”

Laughter and excitement filled the room as PP children enjoyed the lively puppet show “Elle the Elephant.” With colourful characters and expressive storytelling, the performance captured every young heart.

Through Elle’s brave and kind actions, they discovered that helping others is a true sign of courage and respect, making the show both exciting and meaningful.

📅 24<sup>th</sup> of February 2026

## Experiential learning @ Embassy Academy

From Grades II to VIII, classrooms transformed into vibrant laboratories of discovery. An apple became a powerful symbol to understand how precious cultivable soil truly is. Science kits brought solar and wind energy to life, and young innovators explored AI applications and STEM projects. Sustainability took centre stage as children practiced waste segregation, reuse through creative projects, and learned the value of conservation in meaningful, hands-on ways.

Mathematics and language bloomed through playful games, 3D models, multiplication challenges, word hunts, and interactive speaking activities. Tie-and-dye art, best-out-of-waste creations, puppet-making, printing experiments, and life-skill sessions added colour and confidence, turning everyday lessons into exciting real-world experiences.

## What's Coming up

### SUMMER CAMP

Dates - 10<sup>th</sup> April - 24<sup>th</sup> April 2026  
28<sup>th</sup> April - 12<sup>th</sup> May 2026

Get ready for an action-packed **Summer Camp** filled with creativity, sports and discovery! From football, skating, dance, music, art & craft, life skills, storytelling, master chef and science activities to exciting special sports sessions and a fun field trip, young campers aged **3 to 14 years** can look forward to unforgettable summer learning.

Adding to the excitement, we have an **exclusive Summer Camp for parents** that will also run alongside. Register before 31<sup>st</sup> March and get an **early bird discount**. **Bring a buddy and get an additional discount**.

### PARENT TIP OF THE MONTH: 'SELF-RELIANCE'

Encourage self-reliance by allowing your child to take on small responsibilities at home like packing their school bag, tying their shoelaces, or organizing their toys. These simple tasks build confidence, decision-making skills, and a sense of independence. Appreciate their efforts and guide them gently, helping them grow into confident, capable, and responsible individuals.

CBSE Affiliated School

## SUMMER CAMP

**Batch 1**  
10<sup>th</sup> April to 24<sup>th</sup> April 2026

**Batch 2**  
28<sup>th</sup> April to 12<sup>th</sup> May 2026

**Camp Activities**  
Football, Skating, Dance, Music, Art & Craft, Life skill, Story Narration, Science and Field trip  
Time: 9.30 am to 1.30 pm

**Special Sports (For all age groups)**  
Beginner's Golf, Football, Skating, Hockey  
Time: 8.30 am to 9.30 am

**Age Group:**  
Sub Juniors - 3 to 5 yrs | Juniors - 6 to 8 yrs | Seniors - 9 to 14 yrs

**Lunch and Transport will be provided**

**Exclusive Summer Camp for Parents!**
